

# BEGINNING DRAWING

This course will cover the basics of drawing in graphite. Students will learn the ins and outs of all the materials required to start learning the drawing process. Alongside material education this course will give beginners the knowledge of drafting and rendering form to give a drawing depth. Working from basic forms students will get the chance to create multiple drawings from life. Drawing is the most important skill an artist can have and this workshop will help you get a great understanding of those skills.
