

A

A. Neatness Jars

Look Mom, no spills! Designed for classroom use, we have since learned that these jars are great everywhere. The base is made of heavy semi-flexible transparent plastic and will hold most liquids, temperas and paints. The inner design of these colorful lids makes it almost impossible to spill contents.

Neatness Jars with Lids

Number	Lid Color	Number	Lid Color
401010	Transparent	401017	Turquoise
401011	Blue	401018	White
401012	Red	401019	Violet
401013	Black	401020	Brown
401014	Yellow	401005	Peach
401015	Green	401004	Pink
401016	Orange		

B

B. Neatness Jar Trays

This 5" wide by 18" long plastic tray will accept 6 jars. In a tray, the jars are easy to move from table to table or easel to sink. Neatness Jar trays will fit into many of the children's easels on the market.

Number	Description
401000	Tray filled with 6 jars (3 primary, green, black, white)
401003	Two trays filled with 12 jars (1 of each color)
401002	Empty Tray

Neatness Jar Sets

Boxed jars are a great way to order for schools dividing product up for different classrooms.

Number	Description
401007	12 jars (1 of each color)
401008	8 jars (red, orange, yellow, green, blue, violet, black and white)

C. Paint Dispenser

A great new way to mix, store and dispense paint, glue, and other liquids! This 12 oz. plastic container is equipped with a wide mouth to make it easy to fill. The side of this see-through cup is marked in 1 oz. increments and the attached lid seals tightly so your paints won't dry out! Sold in packs of 12.

Number 400216-12

Water Cups

Cups are 3 1/2" in diameter and 1 1/8" deep.

Number	Description
D. 400203-12	Heavy-duty cup w/ brush rests (pack of 12)
E. 101015-144	Economy cup (pack of 144)

A. *The Ultimate Brush Washer*

It's what's on the inside that counts. A cover, a removable sediment tray and a brush holder to protect the brush head from damage, this brush washer has it all. Its good looks are an added bonus! Measures 6 1/4" x 5 1/2".

Number 411250

B. *Brush Washer*

Made from aluminum, this brush washer features a removable sediment tray and a brush holder to protect the brush head from damage. Measures 4 1/8" x 8 1/2".

Number 101001

C. *Shiva Brush Basin*

This durable attractive basin with an anti-stick surface accepts any solvent. It suspends the brush bristles in the solvent so they won't bend. Grooves in the bottom aid in cleaning your brushes. Includes an air-tight lid. Measures 6 1/2" x 6 1/2" x 3 1/2".

Number 122050

D. *Plastic Brush Basin*

This light blue heavy-duty basin features a cover, 1 bucket, 2 water reservoirs, a 16 well paint tray and 5 holes for brushes in the handle.

Number 400262

E. *Medium Collapsible Brush Washer*

This portable, collapsible brush washer is perfect for painters on the go. Made of durable plastic.

Number 411249

F. *Brush Basin and Cleaner Screen Set*

Includes one plastic brush basin listed above (#400262) and one brush cleaner screen (#400264). Color of basin may vary.

Number 400265

G. *Brush Cleaner Screen*

A great way to clean your brushes. Simply place the brush screen in the bottom of a container that is qualified to hold mineral spirits, turpentine or lacquer solvent. Stroke the brush across the screen in the wide mouth container and the sediment will fall to the bottom cleaning your brush much more effectively!

Number 400264

Small Brush Cleaner Screen

This 2 3/4" circular screen was designed to fit into the Richeson stainless steel canisters that come with many of the BEST easels. (Not shown.)

Number 400259
