

Italian Print Making Presses

Jack Richeson & Co., Inc. imports a wide range of the finest presses for etching. The optional stand that may be ordered with most size presses is made of welding tube steel and painted with black varnish. Steel rollers are mounted on oscillating ball bearings and are height adjustable, which makes it easy to adjust the printing pressure. The small, medium and large rollers measure $2\frac{5}{16}$ " in diameter, while the baby press rollers measure $1\frac{3}{8}$ ". Metal plates and felt blankets are available in 4 sizes and must be ordered separately.

Presses

Number	Description
694096	7" Baby Press
694086	12½" Small Press
694089	16½" Medium Press
694092	20½" Large Press
694093	20½" Deluxe Large Press

Richeson Print Making Presses

While we import a fine line of Italian presses, we felt that we wanted to create our own line of presses for top professionals. These are the "Cadillacs" of the press industry!

These presses can be used for a variety of printmaking techniques, including linoleum block printing, collagraph printing, engraving, etching and monoprinting. Richeson Presses are manufactured using quality parts and craftsmanship: heavy castings, steel rollers, and micro pressure gauges. These presses are built rock solid for professionals and priced for artists!

Presses
